"The Owl and Me"

Visit "[The Owl and Me](#)" on MotoLyrics.com

Like an owl opening its eyes to starlight
I am opening my eyes to you
And in the darkness I can see a light
That makes a way for precious few

How can I flail for words
When love has set the stars in the sky?
How can I ever understand the mystery
That lies before the owl and me?

Se levanta la lechuza en la selva estrellada
Ya los ojos a ti as bro
Y en la oscuridad vemos la luz
Que ilumina la senda preciosa
Cmo alcanzar palabras?
El amor dibuja estrellas en el cielo
Cmo puedo comprender el misterio
Que elde la lechuza?
