You take me away, to find a place  
Where's your alliance lie? I know it's vague  
Take me back to the last time  
Take me back, alright  
Take me back to the last time  
You take me away

Let's go to the last time  
Take me back to the last time  
Remember the last time  
Take me back to the last time

My stomachs turning now, my heart it aches  
You've come to realize, we feel the same  
Take me back to the last time  
Take me back, alright  
Take me back to the last time  
You take me away

Let's go to the last time  
Take me back to the last time  
Remember the last time  
Take me back to the last time  
Cause you can't fight these feelings  
You can't fight them away  
Let's go to the last time  
Take me back to the last time

You take me away, you take me away (take me away)  
(x4)

Let's go to the last time  
Take me back to the last time  
Remember the last time  
Take me back to the last time  
Cause you can't (can't, can't)  
Cause you can't (cant, cant) no
