I see you thinking if I'm thinking what you're thinking  
I just move where the mood inside takes me  
Looks like faith means to lead us into nowhere  
Touching every layer of matter from beginning to latter  
It's the laws of attractions that set actions  
Not the voices of the conscious programmed with so  
much nonsense  
Trying to fear us from what's natural  
We were all born supernatural  
And right now I just wanna get closer to you

[Chorus: x2]

If you let me  
I'd love to  
Baby tell me would you let me  
If you let me  
I'd love to  
Baby will you?  
Let me

Sometimes I get carried away by the...  
To be with you night and day  
I love the way we miss behave  
In that earthly way it means I get to feel you with all  
senses  
Burning in senses  
These... how could I forget it?  
I'm not the good girl nor the bad girl  
I'm a woman  
Hear me roar while you adore me  
And employ me to explore for your mission  
I'm on a mission to find you  
Will you let me?

[Chorus]

I suppose now it's the time  
That we imply body soul and min  
Do you mind  
I'll just love it  
If you will let me find myself in you

Let me introduce you to a seduction  
That will guide you into another groove  
I see future in you  
I read pages of you  
And never get tired  
You get me higher  
This flow is... another place another space  
I hope you'll retry what you've ever lost

[Chorus]
