Why why I why I feel so needy
When I'm so powerful
I'm power filled

Me she I sometimes I reach out for you
I know I should be on my own
Cause I'm grown

You don't have to be anywhere for me I want you to do
what you have to do
Be happy baby
You don't have to be anywhere for me I want you to do
what you have to do
I'm gonna do the same too

You be there when I need you even, if you cannot come
when I call you
Simply means that I can handle this without you
And I know that next I see you it will be just when I need
you

You be there when I need you even if you cannot come
when I call you
Simply means that I can handle this without you and
I know that next I see you it will be just when I need you

I'm acting like I'm someone else some someone else,
some kind of excuse me please have you seen my
mind I'm trying to find it
I'm acting like I'm on a shelf waiting to be purchased
like my best before is the best in store and I'm a
product of myself

You don't have to be anywhere for me I want you to do
what you have to do
Be happy baby
You don't have to be anywhere for me I want you to do
what you have to do
I've got things to do too

You be there when I need you even, if you cannot come

when I call you
Simply means that I can handle this without you
And I know that next I see you it will be just when I need
you

You be there when I need you even if you cannot come
when I call you
Simply means that I can handle this without you and
I know that next I see you it will be just when I need you

I think I got lost somewhere inside my emancipation
This fascination with unification has become a bit of an
obsession
That's my confession

I'm going to approach this differently
I'm feeling solutionary
Don't be afraid of me
You're yet to see how free looks like on me

You be there when I need you even, if you cannot come
when I call you
Simply means that I can handle this without you
And I know that next I see you it will be just when I need
you

You be there when I need you even if you cannot come
when I call you
Simply means that I can handle this without you and
I know that next I see you it will be just when I need you

You be there when I need you even if you cannot come
when I call you
Simply means that I can handle this without you and
I know that next I see you it will be just when I need you

You be there when I need you even if you cannot come
when I call you
Simply means that I can handle this without you and
I know that next I see you it will be just when I need you

You be there when I need you even if you cannot come
when I call you
Simply means that I can handle this without you and
I know that next I see you it will be just when I need you

You be there when I need you even if you cannot come
when I call you
Simply means that I can handle this without you and
I know that next I see you it will be just when I need you
