A Long Way to Go — B. Mann, C. Weil

I burned my eyes on the summertime skies  
Travelling a country mile  
I've drowned my pain in the winter rain  
And the sweetness of a smile

I've been possessed — or maybe I'm blessed  
By dreams I can't define  
But can't you see there's a light in me  
And I've got to make it shine

[Chorus]

Oh, sweet Mary  
Mary don't you know  
I may have come a long way  
But I've got a long way to go

I've been through fire, I've been down to the wire

Just trying to find my name  
I've soared as high as the wild birds fly  
But I still came down the same

Now I may feel just a little more real  
But I'm still more lost than found  
And when night time comes I still need someone  
To wrap my love around

[Repeat chorus twice]

[Instrumental]

[Repeat chorus]

Oh, sweet Mary  
Mary don't you know  
I may have come a long way  
But I've got a long way, long way to go.
