Cause today we'll catch a glimpse of eternity.
As the world stands perfectly still - just for a moment.
For the very first time, and it is meant to be.
Yeah, we'll forget about ourselves - and share the
moment.

But today we'll catch a glimpse of eternity.
As the world stands still - for a moment.
And I guess we'll all be making history.
As we all join hands - just to watch the sky.

For the very first time, and it is meant to be.
Yeah, we'll forget about ourselves - and share the
moment.
And I guess we'll all be making history.
As we all join hands - just to watch the sky
