Another day has come to start, but Belzebu have just
conquered the Earth.
Another flame so warm and Dark, evil creatures keep
on falling down or rising fast from the ground.

This is the last time when I can sing this song for you,
this is the last step to hell.
I'm not the last man to keep on playing this song for
you, but I'm the only one to be followed.

I will cry tonight, I will cry tonight, and my hands we
cannot stop this crime.
I will cry tonight, I will cry tonight, and my sword has
lost the eternal fight.

Another war so cruel and Dark, we needn't to fight
anymore we have lost and we go...

This is the last time when I can sing this song for you,
this is the last step to hell.
I'm not the last man to keep on playing this song for
you, but I'm the only one to be followed.

I will cry tonight, I will cry tonight...
This is the last time when I can sing this song for you,
this is the last step to hell.
I'm not the last man to keep on playing this song for
you, but I'm the only one to be followed.

I will cry tonight, I will cry tonight, and my hands we
cannot stop this crime.
I will cry tonight, I will cry tonight, I don't know if I can
come back home.

Cry tonight, cry tonight, cry tonight.
