No introductions time be rushing like a renegade  
disrupt the function put a cease to all these serenades  
I'm breaking down the barricades and blurring the  
dividing lines  
never shook just looking to Allah for His guiding signs  
attack columbus I ain't begging him to reparate  
meanwhile mugabe forces robbers to repatriate  
let's set it straight I never glorify no terrorist  
but nonetheless your pimping with the emperor is  
perilous  
I'm strictly off limit to the cotton-soft scented type  
who tip-toe and dread light and dread the sight  
of a kufi-wearing kid who's kicking science  
picking mental padlocks  
I specialize in defiance  
alliance of the havenots  
battled up energy's exploding out the bottle cap  
cap smash the glass  
y'all hold fast...now model that  
replicate the detonation  
spread across the nation to the serengetti  
but mentally I'm there already  
I done drop machiavelli with a bo shiver  
smack sun tzu, I'm reading loo tzu  
and douse crews with verbal gasoline  
while average teens is unaware and living terrible  
I yell out geronimo and watch the falling dominos  
the drama knows no end until the meek are equal on  
the earth  
I unleash the pen to blow your speakers in 4 what it's  
worth  
upset the status quo by smacking up ya master  
til we smashing in his bottle caps I'm staying stuck on  
autosnap

I read Bukari and the way of the ansari 4 sure  
while the kuffar be spending time on their atari but yo  
with these attachments and distractions can we see it's  
about  
walking the path of many prophets that precede us  
no doubt, we gots to train the mind to recognize and

read the signs  
redefine the inner til my outer shell is redesigned  
maintain and motivate then watch the hours culminate  
I cultivate my frame until it's firm enough to hold the  
weight  
don't know the date but still the judgment day is  
closing and  
a few are chosen but the most of men dozing and  
the body's like a temple from my soul on to my mental  
seeing with my inner eye the spiritual is quintessential  
I perform my mind aerobics rising far b4 the dawn  
give my soul a proper workout while I'm reading the  
Qu'ran  
2 keep my mental sharp I tossed the tv out my crib  
and now looking for my chance to jab dajjal up in the  
jibs  
And this land of bravery, wage slavery, ill imagery  
yo peep the symmetry  
they spending billions on global domination  
while women and children got no accomodations  
meanwhile my thugs is giving desires and savageness  
just tryin to survive and defy the law of averages  
c to in 3 young bros. ain't gon make it  
so once they c a little money they gon take it  
the got us living by a code that is makeshift  
cause in our heart kid you to scared to break with  
the system that dissed you and forgets you  
refuses to lift you  
it either seeks to enlist you or commits you  
but never to permit or admit you

The American economy's surviving of arms  
third world debt  
closing down farms  
promoting conflict and violent behavior  
then using convicts 4 cheap slave labor  
extending patents on the xy chromosome  
pushing drugs from crack down to methadone  
drones to the metronome marchalong to the rhythm  
of the free trade and forced patriotism  
now racism still gives a little bit of stature  
2 modern legacies of the former slave masters  
all these factors then create factions  
insulate the power from a unifed action  
across the map the rich be relaxing  
and in former burma you'll nerver hear no murmur  
cause the dispossessed poor are in sweatshops  
and if they get caught tryna unionize they get shot  
on home soil leaders of the U.S.  
map foreign oil determine who gets  
temporary military so-called aid

And the never-ending scheme of getting paid  
as the rich get richer and the poor get poorer  
it's a nonstop saga bringing worldwide horror  
we fight, losing sight over what we warring over  
as the rich get richer and the poor get poorer..
