I'm a bundle of fear
I'm a pile of doubts
But I hope through the fear
I pray it all works out
'Cause it always does
When it rains, sometimes it floods

I'm a shot in the dark
I'm a fist in your gut
I might do something crazy
And get myself of a rut
But when push comes down to shove
When it rains, sometimes it floods

Chorus:
Let the dam break down
Let the water wash over me
I don't care if I drown
If that's how it has to be
Let the water wash over me

I get out on the edge
But I come back to the middle
All points in between
Of my own personal riddle
Yeah the answers they slowly come
But when it rains, sometimes it floods

It all gets lost
No matter how hard you try
Everything comes with a cost
No there ain't no way to slide
This illusion is clear as mud
When it rains, sometimes it floods
