

The Front Bottoms

"Riverside"

Visit "[Riverside](#)" on MotoLyrics.com

Take a ride by the riverside
And you feel your heart pounding way down inside
Baby let your gypsy spirit fly

Could you let go of your darkest fear
Find those chains around you had disappeared
Turned the ground you walked on into sky

Chorus:

You heard me knocking on your back door, mama
You tried pretending we could just be friends
I think it's time to crawl out from underneath your
cover, lover
I think it's time you let me in

There're times I'd rather walk alone
When I just assume be on my own
Not caught up with another thought of you

But the wheels inside my mind I've found
Caught on fire while they're spinnin' 'round
I could not put them out if I wanted to

Chorus x2
