She's a stigma in my eyes  
With pouty lips and fingertips  
She paralyzes when I've got  
Something to say  
And I can't help it cuz  
It's always been that way  
Walk away from your attack  
Dodging bullets but she  
Just keeps coming back  
Here I stand and here I fall  
And I'm not listening to you  
What'd you say?  
I can't hear any more.  
Lightning strike me where I stand  
You put me into rehab  
And I haven't got a plan  
Cuz what you are  
Is still a part of me  
And I'm giving up on you  
So watch me stand  
Now watch me fall  
Don't pick me up cuz I can't  
What'd you say?  
I can't stand any more  
What'd you say?  
I can't breathe anymore  
Lightning strike me where I stand  
You put my heart in rehab  
And I haven't got a plan  
If what you want is what you get  
Then stay away from me  
Cuz I'm giving up on you.
