Could this be real?  
Corrupted secrets inside  
That will eat you all alive  
They were all wrong  
They're all alike  
Infected degenerates  
Like poison in my mind  
We light the candles and turn out all the lights  
Power to a clinical paradox  
It's time to break out  
Hello to LA nights  
San Francisco will be shut down  
We wait in silence  
Speaking in whisper  
They walk like giants that will swallow the ocean  
Take your stand right here, right now  
We will break you, we'll break you down  
Because in the end your fate is what you make  
Could this be real?  
Corrupted secrets inside  
That will eat you all alive  
They were all wrong  
They're all alike  
Infected and corporate  
Like machines, they're sent to die  
We light the candles and turn out all the lights  
Power to a clinical paradox  
It's time to break out  
New York is not so bright  
San Francisco will be shut down  
We wait in silence  
Speaking in whisper  
They walk like giants that will swallow the ocean  
Take your stand right here, right now  
We will break you, we'll break you down  
Because in the end your fate is what you make  
When I see a future that's afraid I close my eyes to  
think of a better day  
A chapter closed  
The story goes on and on to turn the page  
A story on and on to turn the page

We wait in silence  
Speaking in whisper  
They walk like giants that will swallow the ocean  
Take your stand right here, right now  
We will break you, we'll break you down  
Because in the end your fate is what you make  
When I see a future that's afraid I close my eyes to  
think of a better day  
A chapter closed  
The story goes on and on to turn the page  
A story on and on to turn the page.
