The world is not in your hands
Fuck the system
A systematic position
We've lost our minds, lost our minds
Oh, how we love it
Give it to me, give it all to me
Give it all you've got, give it all you've got girl
Give it to me, give it all to me
Keep up with me
Lay back and let go
Collision course on ignition
I've lost my decision to take me home
I'm just a little bit closer to find...
I'm just a little bit closer to find that all I wanted I had
I'm on a collision course on ignition
I've lost my decision

The world is not in your hands
Fuck the system
A systematic position
I'm blacked out, and spun out, and I love the way it...
I love the way it feels
I don't feel at all
Keep up with me
Lay back and let go
Collision course on ignition
I've lost my decision to take me home
I'm just a little bit closer to find...
I'm just a little bit closer to find that all I wanted I had
I'm on a collision course on ignition
I've lost my decision
This is for my brothers and sisters!
This is for the misguided and alone!
We are the chosen few! The ones who love you!
So rise as one!
We are the ignition!
Stay true to let go
Open your eyes
You'll find a world ungrateful
Stay true to let go
Open your mind to a world unfaithful
Collision course on ignition

I've lost my decision to take me home
I'm just a little bit closer to find...
I'm just a little bit closer to find that all I wanted I had
I'm on a collision course on ignition
I've lost my decision
On ignition.
