What are you waiting for
Salvation is my name
Save me from who I am

Sit back and bite your tongue
Shut the fuck up
I beat you once before and I will beat you again

If you've been the same, you'll leave me changing that
Buried beneath until I rise above,
Sing to me, You'll leave me changing that
For the last time

You turn me on
It's in the way you move (The way you move)
I am consumed by you
I'm drowning I'm drowning on the floor
We've done this over and over again

If you've been the same, you'll leave me changing that
Buried beneath until I rise above,
Sing to me, You'll leave me changing that
For the last time

Drowning on the floor, I know this time it feels alright
Drowning on the floor, I know this time it feels alright

If you've been the same, you'll leave me changing that
Buried beneath until I rise above,
Sing to me, You'll leave me changing that
For the last time

I know it feels alright, drowning on the floor
