I stare and stare as the words fall from your mouth  
Ands and buts and I doubt this conversation's going  
Anywhere with the words you're leaving out

Just stare at the ground as the words fall from your  
mouth  
Ands and buts and I doubt your alibi and reasons  
Could satisfy your angel's grief cause she dances in the  
rain  
But she would crumble on a sunny day if she heard me  
Slip a word or two about the things you do  
About the things you do, oh no

You, you know you got me thinking  
If i could catch you sleeping out tonight  
I'm riding on your lies, don't think that i have never had  
this feeling  
Don't you ever forget you're being watched tonight... in  
the corner of my eye

My eyes will look away and my lips won't leak a word if  
you just say those  
Words, you and I both know I would kill a man or two,  
just give me a go  
What kind of friend wouldn't put on a knife show? just  
point him out  
I'd do anything for you if you asked me to  
I gotta say that i've had i rough

You, you know you got me thinking  
If i could catch you sleeping out tonight  
I'm riding on your lies, don't think that i have never ahd  
this feeling  
Don't you ever forget you're being watched tonight... in  
the corner of my eye

Oh.i gotta say that i've had it rough  
You know i'm a loner born and raised, until i'm dead  
He said i'll live it up, i gotta say that i've had it rough  
You know i'm a loner born and raised until i'm dead  
She said that's so fucked up

You, you know you got me thinking  
If i could catch you sleeping out tonight  
I'm riding on your lies, don't think that i have never ahd  
this feeling  
Don't you ever forget you're being watched tonight... in  
the corner of my eye
