Let me take this time to, ask you, inform you,
Of all the things you did not know.
I'm sorry, I can't be the cure, for your life.
You were always by my side.

By my side.
By my side.
By my side.

Life spent without rain,
You will always be,
The heart in me.
You will always be.

The past, the love, the memories.
The past, the love, the memories.
The past, the love, the memories.
The past, the love, the memories.
The past, the love, the memories.
The past, the love.
The past, the love, the memories.
The past, the love, the memories.
The past, the love.
