Have you always been afraid of what the world can do
Were you always so afraid of what me and you can do
to you

Be my saviour, Be my saviour, Be my saviour
It's cool
Be my saviour, Be my saviour, Be my saviour
It's cool
But it's so true

Have you always been afraid of what you could do to
you
Were you always so afraid of what the world can do to
you

(Chorus)

I tried to imagine that a day could pass without you
I tried to imagine that a day could pass without you
Without you

Have you always been afraid of what the world can do
And were you always so afraid of what me and you
could do to you

(Chorus)
