Cell phones and travel stations  
Ringtones and new relations  
Say hello to all your friends for me  
Several calls I made to Thailand  
Wound up in Prince Edward Island  
And my head feels like it's ready to blow

I served and scratched a rainbow  
So curved, I felt the pain go  
Through my joints and now I don't wanna play  
Swinging down, I sent the birdie  
Downtown at 7:30  
And I'm convinced that I've got tennis elbow

We are lost in the sound  
Close your eyes and I will twirl you around  
We are lost in the sound  
Close your eyes and I will twirl you around  
We are lost in the sound  
Close your eyes and I will twirl you around

We are lost in the sound  
Close your eyes and I will twirl you around  
We are lost in the sound  
Close your eyes and I will twirl you around
