

The Grand Finale

"This Time"

Visit "[This Time](#)" on MotoLyrics.com

o you wake up thinking everything is right?
Don't you realize that your waking up on the wrong side
of your bed
The last thing I'd wanna do is start an argument with
you, but my conscious kills me knowing you're not
being true.

And this time let's be for real
Don't act like you don't care if I was to leave
And this time let's be for real
It takes up so much time when we don't say what we
feel

You can start by taking the thought out of your head
That if I fail you, you'll find someone better anywhere
that's your biggest mistake, and I put you in your place
Let's enhance our light, let's enhance our life, let's
make it right

And this time let's be for real
Don't act like you don't care if I was to leave
And this time let's be for real
It takes up so much time when we don't say what we
feel

I will make this right, I will make this right,
I don't care if it's good or bad
I will make this right, I will make it right,
I don't care if it's good or bad,
wether it's good or bad, I will make this right

And this time let's be for real
Don't act like you don't care if I was to leave
And this time let's be for real
It takes up so much time when we don't say what we
feel
It takes up so much time when we don't say what we
feel
Don't ever act like you don't care if I was to leave
