Longer I hang out with you
The moment has been round and round
... on the ground
You got the devil in you

Always sucking up to you
Only makes me look like a fool
There's so sweet my mind
You got the devil in you

There different you and I
Can't stay together for ever
There just so un-alike
So just don't fool arround again, okey?

Being mixed up with you
Has make my whole world go crazy

Drise up all my thought
You got the devil in you
You all trouble that's you
You got the devil in you
