I have chosen to walk the path of persecution. It's the road less-traveled but
It leads to eternal life. In my heart and in my mind I know where I stand. On
This walk I'll let my convictions be my guide. Conviction. You can't stop this
Fire that burns within me. You can't stop this fire that burns within me. You
Can't stop this fire that burns within me. You can't stop this fire that burns
Within me. You can't stop this. You can't stop this FIRE. I will always, I will
Always, I will always, stand by my... We will always, we will always, we will
Always, stand by our... Conviction. I will let the fire in my heart. Light my
Way, light my way, through the dark. You can't stop this fire that burns within
Me. You can't stop this fire that burns within me. You can't stop this fire
That burns within me. You can't stop this fire that burns within me. I have
Chosen to walk the path of persecution. It's the road less-traveled but it
Leads to eternal life. In my heart and in my mind I know where I stand. On this
Walk I'll let my convictions be my guide. Conviction. You can't stop this -
Fire - stop this - fire - stop this - fire - stop this - fire. You can't stop
This - fire - stop this - fire - stop this - fire - stop this - fire. You can't
Stop this - fire, fire, fire, fire. You can't stop this - fire, fire, fire,
Fire. You can't stop this...
