

## The Great Work

### "When We Are Wrong"

Visit "[When We Are Wrong](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Take one giant step ahead  
Cause the only thing you ever knew was the best you'll  
ever have  
Freeing your dreams to find out what's in store  
The only thing you ever heard was to learn that less is  
more

When you are wrong you will convince yourself  
How to operate so you don't have to change  
When you are wrong you will convince yourself  
How to operate so you don't have to

You're so assertive  
Believe me or don't stay  
As soon as your feet hit the ground you'll run the other  
way  
Freeing your dreams to find out what's in store  
The only thing you ever heard was to learn that less is  
more

You are alone

You're so assertive believe me or don't stay  
As soon as your feet hit the ground you'll run the other  
way  
When you are wrong you will convince yourself  
How to operate so you don't have to change  
When you are wrong you will convince yourself  
How to operate so you don't have to change  
When you are wrong

Don't wait for me to discover your all alone  
Just move along  
Just move along  
Don't wait for me to discover your all alone  
Just move along  
Just move along.
