When you close your eyes
I try on going aside
Don't know why I am still standing
When you close your eyes

When you think about me,
Oh yeah
I try on moving astray
YOU don't let me do what I say
When you close your eyes

Now what can I just say about you
You're too nice to me at some times
Now what can I just say about you
You just let me go on you a I'll frustrated

Oh yeah

When you close your eyes
You just want me to be nice
I just have a phone call in wait
Of a girlfriend of mine

Now when you tell me that you can't just let me go
Now I just close my eyes
I just can't take it no longer
So I let you close your eyes

Now what can I just say about you?
You're too nice to me at sometimes
Now what can I just say about you?
YOU just let me go on you a I'll frustrated!

Oh yeah
