"Blameless"

I wish I could find a piece of mind
???
And I wish there was something that mattered to me
But the end doesn't seem to have no piece
We are blameless
It's nobodies fault

Blameless
Blameless

You say that depression stuns the mind
That's what I do every time
And I always end up where I start
An angry fuck without a heart
You say you're blameless
Something in my past

Blameless
Blameless - I'm the same as you
Blameless
Blameless
