You can take your ideas and throw them out the door  
'Cause we don't give a shit, who they're fuckin for  
We like our ideas and we put them in your head  
And if you don't like it, you're gonna wind up dead

It's me, let's be  
That's right, let's fight  
Might makes right  
Might makes right

It's me, let's be  
That's right, let's fight  
Might makes right
