Try to close your eyes
Baby let me
Feel your love inside
Come to me
I'll make sure
My arms are open wide
It feels so good
That I have you
On my other side
Seeing purple
Doesn't mean
I'm colour blind
Bring it on
I'm penetrating
Through your bone
I'll inject my desire
Inside your chromosome
All alone
I think about you
Night and day
The sex, the skin
Yeah yeah
You make me wanna stay
All day don't walk away
I'm inside you
We'll be makin' love
Like the house is on fire
My desire, it's so good
It gets you higher
Hey seniorita
Give love to my maria

BRIDGE:

So would you
Come with me?
Would you talk to me
And fly with me?
It's a rollercoaster ride
So sit back, relax
Meet me on the other side

CHORUS:

If you want my love
If you want my name
I'll be the one
To feel your pain
Don't you ever leave
'Cause I'm the one you need
Baby I'm the one
That will be here
(x2)
For you

So here I am
Getting wasted
Just to see you smile
Don't be afraid
'Cause everythin'
Will be worthwhile
No one knows
I just can't breathe
I can't let go
I'm not your cancer
I just want to
Let you know

It's like Romeo and Juliet
Check on the set
Neverending love
Then try to reinvent
'Cause I feel the thrill
For real your looks can kill
Like a devil possessed
By your spirit's will
I'll steal your passion
Your pain and your emotion
Start the motion
My destination's your obsession
So hold me tight
Everythin' is gonna be all right
The light so bright oh my god
Let's get down tonight

Repeat bridge
Repeat chorus

Let me go now
You come to shine now
I come now
If you leave
I'll try to die now
(x4)
