

Slapshock "Shelter"

Visit "[Shelter](#)" on MotoLyrics.com

Alone I try to find my way home
In the darkest night I see your face
Peace of mind is what I need
My soul has lost it's memories
Will you take away my pain inside, inside

Chorus:

Where should I be
Where should I find
My real shelter (4x)

Where I can close my eyes and fly away
I'm still so cold full of emptiness
Stuck inside your loneliness
I live without your name, your name, your name

Repeat Chorus:

My life is full of complications
I think this place is my addiction
My brother you're my soul my blood my pain
Leave me now I'm dead so can you stay?

Repeat Chorus:

Yeah yeah yeah
Yeah yeah
