"Mental Stamina"

Visit "[Mental Stamina](#)" on MotoLyrics.com

Yo Afu (Yo whassup?)
Yo yo, c'mere c'mere
Yo let's freak that rhyme we was freakin the other night
(Yo I'm wit it yo just set it off)
I'm sayin though, after this, it's no turnin back 'Fu
(Aiiyo just set it off man)

Pugilistic linguistics, check out the mystics, we're
fantastic
You mean fantastic
Fuck it, you'll get your ass kicked
Challenge my verbal gymnastics
Vanacrobatics
Vocabulary calisthenics
Can't understand the mathematics are esoteric
Watch the style but also peep the lyrics, my lightning,
my thunder
Way back I stomped out Her-cu-les
But now I stomp out MC's
Can't chill, because the Sun don't freeze
Heavy metal, hard like titanium
Alchemist, I turn wax into platinum

[Afu Ra]
Influential, scientific power
My mental violence will shower
Devour at a crazy rate, I speed into your circuits
and incorporatin data banks
Stamina, in the brain is how I slay it
I enforce my voice and I always must obey it
Endorsing a central rhyme of remedies
Against any man at arms that can get with thee
Eternal, internal, alchemist, I spill
logic and science ever since
Throwing cerebral blows without my fist
Poisonous, Taoist
Don't mess with toys in this racket
Terrorists don't proceed to hi-jack it

[Jeru]
It's too perverted, you heard it, so now you get

murdered

Test the sound system, it throws off your equilibrium

Deep concentration can't fracture the meditation

Competition is flipped on at random

Deviant monks attack the mic is mental pandemonium

And then some, you go for your hand gun

Psychokinetic forces proceed to smash in your
cerebellum

Phonetician with more stamina than a Christian

my mind, C3 H5 N3 O9 like Nitroglycerine

I bust as Afu Ra crush

Clash with us and meet Cerebus

[Afu-Ra]

Ready, ridiculous rabbitry, as I commence

I whirlwind through cities

Breaking down substances, combining matter

Test my hand skills and back bones splatter

Rough and tough although the mental will stomp ya

Pugilism electrocute like Blanka

Collaborate, all my words into verses

I instill the will without even curses

Slurs, escapade off the beat

Totally complete with the unique physique

Microcosmic warrior, indeed I'll destroy ya

And this mic, I'm taking over
