Sometimes I just fade away
I never notice it
Am I even really here?

My footprints seem to justify this
So why does life pass me by?

Give me a reason to breathe
Give me a reason to bleed

Soul and flesh
They bonded too late
Don't think I'll make the grade

This is the world's most fitting end
And I'm ready for it
I'm ready for you
Call me up through that hole
In the sky...
I'm alive

Burst into the frame
The bomb hits my brain
I've studied behind the lens

The shadows that now walk through our homes
Are merely carnivals looking for a place to stay

Give me a reason to breathe
Give me a reason to bleed

On the same path
God took a photograph
In turn he sealed our fate

This is the world's pathetic end
And I'm ready for it
I'm ready for you
Call me up through that hole
In the sky...
I'm alive

I've been to the future
And I have seen
More than my eyes
Ever needed to see

So bring on the war
Embrace the suffering
Empty all hope
And follow the call

This is the world's most fitting end
And I'm ready for it
I'm ready for you
Call me up through that hole
In the sky...
I'm alive
