Tell me how you wanted it to be inside the maze  
You scrape the bowl to feed the myth  
The end is just the same  
But you don't know  
What you've done

A drone can track the swarm  
No matter how far they go underground  
Hold your breath enough  
And it comes back round to suffocate  
The truth that you once knew and loved  
Lose hatred has come so far they...

Crowd around and listen close to a choir of angels  
Below the sun and all for one  
Ripped, torn and jaded  
Now in dark we will start a new  
A place to call our home

Cutting out the middle man  
I've got a spade to dig the hole  
Poetry in motion  
Is as guilty as a whore

Seed  
Plant it and watch  
It grow into a cure  
To catch up with evolution  
You can't defeat the change  
Such simple things...

Crowd around and listen close to a choir of angels  
Below the sun when all are one  
Ripped, torn and jaded  
Now in dark we will start a new  
A place to call our home

Sit and wait for it to fall  
Back down to my knees  
I tried to see  
But the light brought me up...

Now I just crave everything  
And I suppose I'm too blame  
But at least now I know  
What is right  
And this hole in the earth  
It will not change our lives

This is insane tell me how can it be  
That we are the ones who will witness the end  
Well all this became  
So much more than a dream  
When you laughed it all off  
Turned and buried your heads in the sand

(Sodomy takes a hold  
Now we are all alone  
Odyssey soon to be  
Coming on reality  
Better loved than you all  
The outer shell cracking now  
Broken down  
Filling out all  
The fear lying here)

Where is the prayer  
To speak in times like these?  
I'm lost, tired and scared  
I need to be free

Crowd around and listen close to a choir of angels  
Below the sun when all are one  
Ripped, torn and jaded  
Now in dark we will start a new  
A place to call our home
