When you're stuck
Is he there for you
If he's not
You can call on me
How many times must he let you down
Till you stop
Bring your pain on me

Cos' I wanna hold you
Hold you for the rest of my life

Is he the one
The reason I'm living without you
He can't be the one
Who will love everything about you
And when you're getting old
Will his love still grow
I just wonder
Is he the one

For a while
I've been thinking about my life
Is there no way out
How many times were you almost by
When you're not
Gonna lose my mind

Cos' I wanna love you
Love you for the rest of my life

Is he the one
The reason I'm living without you
He can't be the one
Who will love everything about you
And when you're getting old
Will his love still grow
I just wonder
Is he the one

When you're stuck
Is he there for you

If he's not
You can call on me
How many times must he let you down
Till you stop
Bring your pain on me

Is he the one
The reason I'm living without you
He can't be the one
Who will love everything about you

Is he the one
The reason I'm living without you
He can't be the one
Who will love everything about you

And when you're getting old
Will his love still grow
I just wonder
Is he the one
He can't be the one
Is he the one
I just wonder
Is he the one
