Can't climb any mountains can't climb any seas  
I think all your friends hate me  
They treat me like I got some fucking disease

Breakaway  
Breakaway

I don't think much of myself  
You could say I got low self esteem  
But my heart breaks just like anyones  
Although to most that's not how it seems

Breakaway  
Breakaway  
It's a form of mindcontrol  
And it's taking my very soul  
I don't make friends just enemies  
And I'll never know what you see in me

Breakaway  
Breakaway
