

Color Red, The "Clone"

Visit "[Clone](#)" on MotoLyrics.com

There's a new way out of here
It's called deception
It makes you feel you're alone again
There's a new way out of here
I fight direction
It makes me grow
And keeping me feeling

Wish I had another you to lie to
Everyday making the wrong the right way
Everyday making the wrong the right way
And I don't use direction

There's a new way out of here
It's called deception
It makes me grow
And keeping me feeling

Wish I had another you to lie to
Everyday making the wrong the right way
Everyday making the wrong the right way
And I don't use direction

Wish I had another you
To keep me feeling
Wish I had another you to lie to
Everyday making the wrong the right way
Everyday making the wrong the right way
Everyday
Everyday
