Boys are cheats and lairs, they're such a big disgrace.  
They will tell you anything to get to second base-  
Ball, base ball, he thinks he's going to score.  
If you let him go all the way, then you are a whore  
Ticulture studies flowers, a geologist studies rocks.  
The only thing he wants from you is a place to put his  
cock  
Roaches, beetles, butterflies, and bugs,  
Nothing makes him happier than a giant pair of jugg  
Lers and acrobats and a dancing bear named Chuck.  
All guys really want to do is forget it, no such luck!
