Slash's Snakepit
"Shine"

You turn me on like some midnight show, I'm so damn
strung
You burn me out, red line overload, then watch me
blow

Well I've been waiting hypnotized, down on your floor
You can't save me
You don't have Adam and Eve to kick around anymore
They really do write the song
They want everybody to...

Shine, they want you to shine
Stand beneath the sun, and you too can shine

I shed my skin, you peel it back, unoriginal sin

Well I've been wasting hypnotized, down on your floor
You can't save me
You don't have Adam and Eve to kick around anymore
You really do rock the show, they want everybody to

Shine
They want you to shine
Everybody
Shine if you're loaded baby
Shine any place that you're gonna be
Shine
Stand beneath the sun, and you too can shine

So violated, the way we burned out from its fire
So violated, the way we killed the sun
So violated, the way we burned out from its fire
So violated, the way we killed the sun

Shine
They want you to shine
Everybody
Shine if you're loaded baby
Shine any place that you're gonna be
Shine
Stand beneath the sun, and you too can shine
