C'mon and live it
Ooh yeah
Sittin' home by yourself
Wit T.V. on
Ya know you got nothing
Better to do
And then all of sudden
Ya get a feelin' inside
There's a whole party
Waitin' for you
You crawl out in the jungle
Late at night
Your friends say
Go real far
(Ya go real far)
Now you searchin'
For the time of your life
And you'll never
Know where you are

It's the wild life
That's in your veins
You'll feel like animal
That's been uncaged
Ya' live the wild life
(Wild life)
It's a wild wild life
Right!

C'mon and live it
Ooh yeah
Now you're hangin'
With the pack
Out seein' sights
Now everything' s
Lookin' good to you
It's a fine line
Between fire and ice
But you gonna
Break it through
You're driving fast now

With the wind in your hair
Ya' know you can't get enough
(Ya' can't get enough)
No matter what you see
No matter what you do
You know you'll never
Never know where are you

It's the wild life
That's in your veins
You'll feel like animal
That's been uncaged
Ya' live the wild life
(Wild life)
It's a wild wild life

So now you' re out
In the jungle late at night
Your friends say
Go real far
(go real far)
You' ll be searchin'
For the time of your life
But you'll never
Know where you are

It's the wild life
That's in your veins
You'll feel like animal
That's been uncaged
Ya' live the wild life
(Wild life)
It's a wild wild life

Wild wild life
(Wild life)
Wild wild life
(Wild life)
Wild wild life
(Wild life)
Wild wild life
