Sounds unfold from the city below and penetrate my
state of mind,
Awakening me with the silence of tomorrow.
A new solar day has begun but it's gray as the one
before.
Without sense of time, the apathy in me grows.
Gazing out on the streets, the mechanical self takes
control.
Dead is the sight of mine and I merge with the electric
eyes,
Absorbed in the world of the hollow.

Fade-out, fade-out,
Fall astray.
Can't recall what I'm searching for,
Renumbered.
Fade-out, fade-out,
Fall astray.
Maintain that I need more,
Attempered
In paradigms I fall astray.

A situation with no return,
I yield to the blinding lights summoning me to the core
of the city.
Outside the air is sulfa, choking me with liquid flames.
Without sense of harm I move toward the center.
Amongst the crowd of drones I walk, with a massive
pulse we approach.
Cold is the atmosphere.
As we wait for the words to comply I taste the surge to
devour.

Determination's born in my self
And released through the sensory circuits in mind.
Face the lie, embrace and decontrol.
Re-awake,
The last man dies alone.
Spurn to follow.

Fade-out, fade-out,

Fall astray.
Can't recall what I'm searching for,
Renumbered.
Fade-out, fade-out,
Fall astray.
Maintain that I need more,
Attempered.
In paradigms I fall astray forever.
Forever gone.
