"Test Drive"

Tell me what to do
It's pitch black and I'm all alone with you
Just struck a quarter past 2AM
The party's starting to move

So tell me do you want to go for a ride
'Cause I can't seem to get you off of my mind
I'll grab the keys and you can hold the wheel so I can
show you
How we move

I can take you for a test drive
All night, all night
We'll be standing in the headlights
Timing is right

Listen to that motor run
As we shift in to gear
Baby, I'll be in your top 5
And you can't deny

Dawn is creeping in
Our 7 minutes in our heaven is a sin
The night is young, and so are we so naive
To our situation?

Tell me is it gonna keep you up at night
When you can't get the way I tasted off your mind?
I'll grab the keys and you can hold the wheel
So I can show you
How we move

I can take you for a test drive
All night, all night
We'll be standing in the headlights
Timing is right

Listen to that motor run
As we shift in to gear
Baby, I'll be in your top 5
And you can't deny

She's like a drug that's inside your veins
She's the most perfect kind of pain
And when she fell in to my life
I just had to take the wheel and drive

I can take you for a test drive
All night, all night
We'll be standing in the headlights
Timing is right

Listen to that motor run
As we shift in to gear
Baby, I'll be in your top 5
And you can't deny
