Lisa, where have you been?
Gone for a while.
Now you are back.
I found my smile again because of you.

I'm leaving the world with you tonight.
I give it to you to show me the light.
I'm leaving the world with you tonight.
I give it to you to show me the light.

I know that I've changed.
It's just that my mind has been erased (been erased)
I am the same.
But I'm blinded by the pain.
Don't leave again, yeah.

I'm leaving the world with you tonight.
I give it to you to show me the light.
I'm leaving the world with you tonight.
I give it to you to show me the light.
