The first thing
I was thinking that I was nothing special
Till someone crashed right into me... yeah me
She was, just a little bit crazy,
I knew it when she told me,
Things would be just fine... so fine
So what's left to do is done... for good
Woah... Oh she's the latest one,
All the other times were wrong,
Yeah she's the latest one one one...
Yeah everything she says,
It goes right to my head,
I'll never feel this way again... ohh yeah... she's the
latest one
She gave me an invitation to her place
For what occasion I'm not sure
But I know it will be good... so good
Outside I am waiting for her sign,
To let me in,
So we can talk the night away... away
So what's left to do is done... for good
Woah... Oh she's the latest one,
All the other times were wrong,
Yeah she's the latest one one one...
Yeah everything she says,
It goes right to my head,
I'll never feel this way again... ohh yeah... she's the
latest one
Nobody... Can give me... A love like hers...
So what's left to do is done... for good
Woah... Oh she's the latest one,
All the other times were wrong,
Yeah she's the latest one one one...
Yeah everything she says,
It goes right to my head,
I'll never feel this way again... ohh yeah... she's the
latest one
