Go

The stage is set there will be battles here
People will die this is clear
An uprising has been brewing for sometime
Now the stars are aligned

Where do we go from here?
Where do we go?
Now that the smoke has cleared
Where do we go?

After many have fallen and many have lost who they
love
Reflect
Will it all have been worth it?
Are we just like our fathers or will we end up in time
Doing nothing is not perfect

Where do we go from here?
Where do we go?
Now that the smoke has cleared
Where do we go?

So long no one keeps giving it all
They just keep on taking it all
Pretending like nothing,
Pretending like nothing is wrong

Where do we go from here?
Where do we go?
Now that the smoke has cleared
Where do we go?

This must be wrong
Now that we can't talk about this
Give us something
