Here in this problem, you're running for spaces to hide
You're looking for answers, the reasons to stay leave
your mind
Of all the faces and places I don't want to be
And time questions everything
I'm trying anything, I don't want to end this thing at all

[Chorus]

I know you're leaving please stay I'll make it alright
Please come down Jesus and buy me a little more time
I see you go and it's got me burning inside
I can't believe my eyes

I dig through my pockets, can't find the keys to get out
of here
The ring on this finger wears like a scar you can feel
I pray for this unity
Stay 'cause I'm incomplete without all the grace inside
you bring

[Chorus]

I know you're leaving please stay I'll make it alright
Please come down Jesus and buy me a little more time
I see you goin' it's got me losing my mind
I can't believe my eyes
Please don't go away

[Chorus]

I know you're leaving please stay I'll make it alright
Please come down Jesus and buy me a little more time
I see you goin' it's got me dying inside
Please stay here with me
