You're my sunshine, you're my sunshine

Put down your books
Let's get unhooked
Turn off your phone
So we can be alone

You're my sunshine, you're my sunshine
You're my good news when I need some
You're my favorite techno rhythm
You're my sunshine, you're my sunshine
You're my sunshine, you're my sunshine

Let down your hair
Let's go somewhere
Leave everyone
So we can have some fun

You're my sunshine, you're my sunshine
You're my ride home when the bars close
You're my all night anything goes
You're my sunshine, you're my sunshine

Put down your books
(You're my sunshine, you're my sunshine)
Let's get unhooked
(You're my beach house when I feel blue)
Turn off your phone
(You're my best friend when I need you)
So we can be alone
(You're my sunshine, you're my sunshine)

You're my sunshine, you're my sunshine
You're my good news when I need some
You're my favorite techno rhythm
You're my sunshine, you're my sunshine
You're my sunshine, you're my sunshine
