(GrishamBarnesEmoryRoche)

[by TSOL]

[Abolish Government]

Abolish government

There's nothing to it

Forget about God

He's no innocent

We live by a system

Of perfect goals

People vs. people who are bored and old

Life must rest on the man who represents

Looking for nothing in this

Campus with just friends

President the name

President the label

The highest man on the government table

[Superficial Love]

Superficial love only for a fuck

But love is incest and it's only for a fuck

To the guys provided free

Peace time war time country's in vein

All die for this land some over seas

I live for the summons serve my country

Army, Navy, Air Force or jail

To the guys provided for free

Peace time war time country's in vein

But that's the American way what it is to be free

If that's what they call freedom it's not for me

Suck my motherfuckin' dick
