Can't explain the other side  
Answers lost before their eyes  
Violence surges from inside  
A state of mind that never dies  
Born into a chosen way  
Life that doesn't fit today  
To die a painful death it seems  
Is better than your misery  
Contemplating rearranging  
Changing all your ways of thinking

(Lead: King)

Everyday your life seems like  
It's pushed into a hole  
Acting out another's need  
To rule a soul eternally  
Adjusting to another set  
Of values take its toll  
Growing in a lunacy  
That plays on your stupidity

Circle of beliefs, secrets never keep  
Living in a lie, right before your eyes  
Born without a brain, helpless in your name  
All you do is pray, living is your pain

(Lead: Hanneman)

Mentality so small  
You can't accept another side  
Your point of view a memory  
Because it doesn't mean a thing  
The resurrection's waiting  
For a world without a sin  
The temples all will crumble  
While awaiting for it to begin

Circle of beliefs, secrets never keep  
Living in a lie, right before your eyes  
Losing is your way, mental disarray  
I can see your strain, you don't want to be saved

(Lead: King)

Can't you see no validity  
Must control silencing of souls  
Slow decay spreading through your brain  
Devastate the deviant will dominate

Can't you see there's no validity  
Your way is not the only way  
Slow decay is spreading through your brain  
Don't you see the power of the enemy  
Tyranny total supremacy  
Control the silencing of souls  
Slavery within the entity  
Devastate, dominate

Can't explain the reason why  
Someone would rather live than die  
If dying was the only way  
To end a life of mental stains  
All your life he's been the cause  
A man impaled onto a cross  
Pure religious holocaust  
If religion dies it's not my loss

(Lead: Hanneman)

Perception always biased  
Feeding off a fallacy  
Your systematic way of life  
Decided for you every night  
Intentional conflicting words  
Avoid solidity, blinded by the holy light  
That constantly consumes your mind

Circle of beliefs, secrets never keep  
Living in a lie, right before your eyes  
Burning in my wake, souls are free to take  
Your following a fake, every one awake
