Strangulation, mutilation, cancer of the brain  
Limb dissection, amputation from a mind deranged

Asphyxiation, suffocation, gasping for air  
Explain to me the feeling after sitting in the chair?

Ripping apart, severing flesh  
Gouging eyes, tearing limb from limb

Experimentation, slow infection, internal decay  
Execution, need transfusion, body rots away

Sliced incision, zero vision, loss of vital signs  
Skin contortion, bone erosion, your life becomes your  
fine

Ripping apart, severing flesh  
Gouging eyes, tearing limb from limb

Strangulation, mutilation, cancer of the brain  
Limb dissection, amputation from a mind deranged

Asphyxiation, suffocation, gasping for air  
Explain to me the feeling after sitting in the chair

Sliced incision, zero vision, loss of vital signs  
Skin contortion, bone erosion, your life becomes your  
fine

Necrophobic can't control the paranoia  
Scared to die
