Imagine humanity's decline
Step inside my stain of mind
Infesting superiority
Infectious immorality, oh yeah

Come worship the place no truths are told
Praise the land where sins are sold
No passion, no love, your faith evades
Never see yourself again that way

Death becomes your bride
Lifelessness invades your eyes
In fire baptized
All pain sifts through my soul

You'll never feel greater misery
Master of my enemy
Let the purest stain of mind
Wash the virtue from your eyes

As one the collective unifies
Emanate a faithless shine
Forever creation has conceived
Birth of destruction spreads its wings, oh yeah

Chaotic rebirth a new domain
Relive the sight the sound the pain
Erotic the taste of agony
Adorn the scars of inhumanity

This is what you see
Deep inside of me
Agony is life
Lechery is life

Godlessness is life
Purgatory magnified
In fire baptized
All pain sifts through my soul

You'll never feel greater misery
Master of my enemy

Let the purest stain of mind
Wash the virtue from your eyes

Enticing malevolence allures
Bastardize the clean and pure
Salvation forever crucified
I choose the other side, oh yeah

Entire, complete serenity
Injected intravenously
Transgression euphoric bliss divine
Initiate a timeless stain of mind

Blood will sterilize
In fire I baptized
All pain sifts through my soul

You'll never feel greater misery
Master of my enemy
Let the purest stain of mind
Wash the virtue from your eyes
