Disembodied
My hands are no longer under my control what they are
doing to you now you have done to yourself
Have you ever heard of honesty
You backstabbing bitch
You will never be a man
You will never be me
Manipulated
What you do is what I say your pupils have rolled in the
back of your head from the pain
The fear across your face arises what's inside of me
Get the fuck away from me
I never want to see your face again
So get away from me
Jealousy is Hell
It's heat against your face
From your insides you suffer
As you forever burn where you stand and where you lay
(inside second time)
Have you ever heard of honesty
You backstabbing bitch
You will never be a man
You will never be me
Burn
