Manifest Destiny
Will Be The Death Of Me
Long Nights
Always Run Down
But I can finally breathe
Saved my life, you saved my life, our lives together we
will excel, succeed,
Together we will survive
Achieve Triumph Believe
The Foundation of our future
It rests on our shoulders
A legacy we will leave
Manifest Destiny will be the death of me long nights
always run down but I can finally breathe
Saved my life you saved my life
Our lives together we will succeed
This is our chance to make fucking history
This is our chance to make history
Cast out the weak
Unite the strong
Ignite the willpower within us all
Cast out the weak
Unite the strong
Annihilate the traitors that have breaches our walls
We will choose our fate
We will choose
