[Chorus: Legacy]

Look up on a cloudy night  
And I bet that you'll see a star  
Come back tryin' to make it work  
And I won't even know who you are  
There's no way that we can be one  
If we're already torn apart  
I have movin'  
Movin' away from your heart

[Verse 1:]

Through all this tragedy we up  
You can't be mad that we done  
It's like karma's a real bitch Natalie Nunn  
It's funny casue now you sayin shit like you miss me  
Some months ago you ain't want shit to do with me  
But now that I'm more she wanna smash again  
I think she scared I pulled a Kardashian  
Oh well, you wearin diapers  
I do big shit now  
If you pull up I don't need you  
I'm a big kid now, get it (haha)  
I'll never bring chick out in public  
Like a tranny I don't mean to be a dick but fuck it  
If lovin' you was right than I guess I'm too wrong  
I pretend the volver was in my way I gotta move  
If you buggin' me than all I'm gonna get is pissed off  
Like, I'm recommendin' you to buy a shell and get lost  
Better do what Daphne did and get a clue  
You're never gonna see me again but I bet if you...

[Chorus: Tinashe]

Look up on a cloudy night  
And I bet that you'll see a star (see a star)  
Come back tryin' to make it work  
And I won't even know who you are (oh, oh, oh)  
There's no way that we can be one  
If we're already torn apart  
I have movin'  
Movin' away from your heart...

[Verse 2: Legacy Talking]

I kinda think it was wrong that it got started  
So bad that we started beefin' on a song  
Got me actin out that anger that I promised was past  
And besides I gotta new boo now she's an actress  
So that means she don't need nothin' from me  
She's a multi-millionaire, shoulda seen all this money  
And a chick who stay real is the chick who can't fail  
She is I-n-d oh shit you can't spell...  
Shile you we're schemin' on getting rich and shit and  
bought more  
Cause that louie bag I bought you change right to the  
store  
And that Gucci bag I bought you can't pay's next  
month's rent  
How you doubling your worth if your money just got  
spent  
Unlike the people who play sports for a livin'  
If you slow me down I ain't fuckin' with it  
You better do what Velma did and never get a clue  
You're never gonna see me again but I bet if you...

[Chorus: Tinashe]

Look up on a cloudy night  
And I bet that you'll see a star (see a star)  
Come back tryin' to make it work  
And I won't even know who you are (oh, oh, oh)  
There's no way that we can be one (you had your  
chance)  
If we're already torn apart (I'm famous now)  
I have movin'  
Movin' away from your heart..
